

Supplementary information (in Blue):

Each committee member will have access to **one unique subset** of the candidates' supplementary information (see illustrations on the right). The Search Committee should consider both the public information and the supplementary information when comparing among different candidates.

Specifically, all supplementary information is distributed in a way that allows each committee member to know most about the candidates who share the same culture background with theirs. For example, you will be able to see the supplementary information under 3 items of a Chinese candidate's CV; however, you can see the supplementary information under only 1 item of a U.S. candidate's CV.
