Preferred Qualifications for Candidate Evaluation:

Members in the Search Committee should follow three criteria to evaluate each candidate:

- Excellent coursework performance:
  Qualified candidates should receive **top grades** in their education programs.

- Solid research experience in quantitative analysis:
  Qualified candidates should demonstrate proficient research skills in **large scale data** analysis using **statistical and/or computational methods.**

- Rich industrial experience in diverse teams:
  Qualified candidates should have sufficient experience of working in **cross-department or multi-institutional industrial teams/projects.**

Your goal is to identify **one** most qualified candidate for this open position.

The candidate you nominate should be the one who has the **highest** number of **qualified items** among all candidates.

候选人评估标准：

招生办成员应遵循以下三个标准来评估每位候选人：
- 优异的课业表现：
  候选人应在其教育经历中取得优异成绩。
- 与定量研究相关的科研经历：
  候选人应具有熟练运用统计学或者数学方法处理分析大数据分析的能力。
- 与团队协作相关的工作经历：
  候选人应具有参与跨部门或者跨机构公司项目的工作经历。

您的任务是为此职位找到最符合评估标准的候选人。符合评估标准的经历数目最多的候选人将是您提名的最佳候选人。
